Gelmaster, Geltronic & Air Charm

Fragrance Machines

UK  **MADE**

Supporting a fragrant environment

Gelmaster, Geltronic & Air Charm

Covering large areas and small

The Lunar **Gelmaster** is a mains operated machine that is made for larger areas. The curvaceous lines of the Gelmaster mains operated air freshener have been designed to compliment the **Storm** hand dryer and our new line of automatic soap dispensers. Two run time options are available, either continuous running or timed (which can be adjusted to automatically turn on / off every few minutes). The unique gel tray design ensures all of the fragrance is used during its lifespan. The spent gel's residue is non-toxic, so can be simply disposed of.

Easy change gel

Approx. coverage	60 sq. metres	Finish	White or Chrome plated
Gel change	4 to 8 weeks approx.	Construction	Fire retardant ABS front on a galvanised steel chassis
