HSW1AS – Hyper-dri in silver

The Magnum **Hyper-dri** is a high power, automatic hand dryer that will dry your hands in approximately 10 seconds.

Using only 850 watts of power, its clever design takes its heat from the brushless motor thus alleviating the need for a separate heater element.

Unlike conventional hand dryers that have only 1 sensor, the Magnum Hyper-dri has 3 which can detect your hands from three different directions.

Its removable drip tray, which collects any surplus water, eliminates water dripping on the floor.

The Magnum Hyper-dri has an attractive silver finish that will fit in with most environments.

Actual size W 65 x H 29.2 x D 25 cm

Magnum Hyper-dri Hand Dryer

Features

Drying time – 10 seconds approx. / air speed 95m/s (217m/h) / infra-red automatic self adjusting circuit

Voltage - 220 / 240v 50Hz

Total Watts - 850 watts

Display - LCD Instruction and countdown

Motor - ICP Brushless type

Decibels - 79 dba @1 metre / 30 second auto shut-off

Drip proof – IP22

Isolation – Class 1

Finish – Silver

Construction – High impact ABS

Guarantee - 1 year. Terms and conditions apply

CE approved; also WEEE

Packing Details

Width - 71 cm

Height - 32 cm

Depth - 36 cm

Weight - 12 kg
