

Order Code:

FGF2SW – FUSION-2 / white with shatter resistant lamp

FGF2SS – FUSION-2 / stainless with shatter resistant lamp

Insect-a-clear

The Insect-a-clear FUSION range comprises of two models, the FUSION 2 and FUSION4.

It is the ideal alternative to conventional high voltage machines.

Unlike other insect control machines, the FUSION range have many features that make maintenance quick and simple. Stainless steel retaining plates simply lift open to allow the glue boards to slide out from its position and the replacement board will slide in just as easily. When the time comes to change the lamps, the front can be removed without the need of any tools.

With its unique 'thru board light technology' all the lamps can be seen from both sides of the machine, thus giving maximum attraction to flying insects.

Actual size W 51 x H 38 x D 9 cm

Insect-a-clear FUSION-2 / Glueboard

Features
