The Nano H72 is a professional UK manufactured High voltage grid insect control machine that is suitable for restaurants, kitchens, food shops etc. where flying insects pose a problem.

After the insects have been attracted by the high output UVA lamps, and killed by the high voltage grid, they can be quickly and hygienically disposed of in the large catchment tray.

Made for wall mounting, suspending or free standing; the 'lift and lock' front guard enables tools free servicing.

With a 5 year guarantee, competitive pricing and the option of white or stainless steel, make this a very popular model.
