

Insect-a-clear

Order Code:

- FG8SSS** – GLU-80 LED Suspended.
- FG8WSS** – GLU-80 LED Wall mounted

There are two models of the Insect-a-clear GLU-80 machine, suspended and wall mounted. The suspended model uses 2, 5w high output LED lamps and the wall mounted version, one. The flying insects are attracted by the high output LED UV lamps. These lamps have their starters built into the lamp. When changing the lamp, you get a 'new' machine unlike other models where the control gear will require changing at some time. Removing the glue board is quick and easy and once removed, monitoring by a pest controller or hygiene manager is easily undertaken. Conforms to IP65 for water and dust protection. Screws and wall plugs or chain is supplied.

Suspended
Actual size W=660 H=245 D=245

Wall mounted
Actual size W=660 H=245 D=245

GLU-80 LED

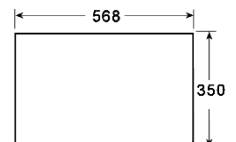

Specification	FG8SSS - Suspended	FG8WSS – Wall mounted
